# Global trends in quality assurance

- “Same same but different”
- New language – re-badging or revolution?
- Increased emphasis on accountability
- Recognition of and need for data from third parties – complementary or competition?
- Turbulence in mature higher education systems

## Drivers in the quest for quality

- Enhancing international competitiveness
- Greater transparency
- Expectations re return on investment/cost
- Student centred or sector protection?
- Reputation and brand management
- Addressing diversity in providers and provision
