The BrandHK fact sheets provide detailed and useful information about Hong Kong on a wide range of topics:

Cosmopolitan Education

Cosmopolitan Education

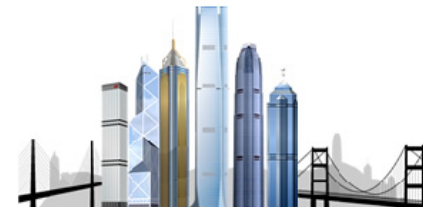

Government outlay on education exceeds \$52 billion (US\$6.7 billion) a year – the biggest item of Government expenditure – accounting for about a quarter of the recurrent annual budget. There is an acute awareness of the need to equip students with the knowledge and skills to compete in a competitive and globalised world, and reforms are introduced where needed to ensure Hong Kong is in step with global dynamics. “Lifelong learning” is one of the city’s fundamental principles.

Fun Facts

Next to nature

Green Hong Kong is right on the city’s doorstep. Hiking, swimming, scuba-diving and sailing are all possible just a short journey from downtown. About 70 per cent of Hong Kong is rural, and 40 per cent of the total land area is protected.

Our global strategy

A circular approach & three basic assumptions:

- ❖ We believe that HK & the Chinese Mainland will become increasingly integrated
- ❖ China will become a key player in international higher education & universities in HK and those in the Chinese Mainland must leverage on each other, in order to excel.
- ❖ PolyU has a unique and niche role to play
