Trends According to Forbes, Gartner and Others

- ▶ What happened with smart phones over the last 8 years is what we see happening with video...Instantaneous video everywhere.
- ▶ Ultimately your computer's going to be the main source of communication even by phone, so you might as well get used to it.
- ▶ Wainhouse researchers recently predicted a growth rate of **28%** in telepresence and video use for communication via computer in **2011**.
- ▶ And Gartner recently said that telepresence will replace **2.1 million** airlines seats by **2012**.
- ▶ Gartner also forecasts that by **2015, 200 million** workers globally will run corporate video conferencing from their desktops.
- ▶ Virtualization...we are moving to the cloud with 40% workers in hybrid offices by 2012
