

THE OBSERVATORY on Borderless Higher Education

THE INTERNATIONAL HIGHER EDUCATION THINK TANK obhe.org

Intelligence on Higher Education Innovation Worldwide

The Observatory is a higher education think tank with institutional members across 30 countries. Our unique remit is 'borderless' higher education worldwide – disruptive innovations such as online learning, internationalisation in all its forms and commercial competition and partnerships. We offer analysis on trends, business models and policy frameworks.

Our purpose is to provide strategic intelligence for education leaders and policymakers attempting to navigate the opportunities and threats of borderless higher education.

EXAMPLE RESEARCH AREAS

- MOOCs, the online and open-access learning revolution
- Branch campus models and other forms of transnational education
- Use of agents in international student recruitment
- Comparative developments in immigration policy as they affect international students
- New regulatory frameworks
- Impact of transnational education on traditional student mobility
- Private and for-profit providers and public-private partnerships

MEMBERSHIP BENEFITS

- Full access to our extensive online archive of reports and articles dating back to 2002
- A substantial reduction on the registration fee for our Global Forums and other conferences
- Opportunities to publish research with the Observatory
- Access to our strategic consultancy service: we provide customised primary and desk research
- Regular news analysis
- Quarterly reports on a wide range of topical issues: in-house and from experts around the world
